

STRATHCONA NEWS

LOCALS.

The Strathcona Lawn Tennis club held a very enjoyable lawn tennis tournament on the Strathcona open house, and the management was more reliable than those who had the affair in charge. The executive committee consisted of Marion, H. M. Simpson, A. B. McLeod, S. N. Davidson, J. M. Kinney and V. McElroy.

C. P. Reid Foreman Hall, who has injured a few days ago, is able to be out again little the worse of his slipping up a few days ago.

Rev. H. E. Gordon will preach at both services in the Metropolitan Methodist church tomorrow.

In morning the subject will be "The Ministry of the Church." The subject of the Sunday School will be "The Work of the Church."

On Sunday week in Holy Trinity church there will be a meeting in the afternoon from 2 to 4 p.m.

Rev. J. C. Bowen will preach Sunday evening on "The Law of the Third Commandment and Present Day Observance," being the third of his sermon on the Ten Commandments.

A meeting of the parishioners of Holy Trinity church will be held on Wednesday evening to wind up the business outstanding in connection with the present edifice.

The ferry at Walters' mill was started yesterday morning at 7 o'clock and will now run on its old schedule unless ice coming down the river interrupts. Many passengers will miss the familiar face of Ferryman Durille, who was killed last winter by falling from a roof.

Mr. and Mrs. J. A. McFarlane have gone on a short visit to Calgary to make arrangements for their permanent removal to that city.

Work has been begun on the improvements of the grounds of the legislative institute and temporary home of the University of Alberta.

N. D. Mills has received instructions from the department of public works at Ottawa to close the purchase of the Strathcona post office and army site.

The post office site is lots 1 and 2, block 65, at the corner of Whyte avenue and First street west, and the price paid is \$10,000.

The army site is lots 1 and 2, block 92, property of Angus McLeod, at the corner of Third avenue north and First street, across from Jackson's foundry. The price is \$1,000.

ALTERATIONS AT IMMIGRATION HALL.

Extensive alterations and improvements are now being made at the city immigration hall, at a cost of about \$2,000 which, when completed will make the building much more comfortable and also well equipped with modern conveniences.

Through the instrumentality of local immigration officer John S. Fraser, a substantial sum was used by the Dominion government last season for these improvements and the workmen have been engaged some time in making the alterations as rapidly as the weather conditions would permit.

A system of electric lights has been installed by Messrs. Kent and Parr, electricians, and provision is made for good lighting facilities in every room including the adjoining apartments for men in an adjoining building.

Underneath the main hall excavations are being made by a basement in which will be placed the coal bins and boiler, which will provide a satisfactory system of hot water heating throughout the building. Work is also being pressed this week on a new brick foundation which will be for the local free store and partitions of the main hall.

A large number of immigrants have been accommodated at the hall this spring and it is anticipated that for the next few weeks it will be fairly well filled. Under the present capable management and with the improvement being installed, the hall should be entirely satisfactory to any number of settlers who choose to make it their temporary quarters.

BLACK HAND GETS VICTIM.

Woolly Chicago Italian Who Refused Demands for Money Murdered.

Chicago, May 7.—A woolly Italian cigar manufacturer, whom the police say has on three occasions escaped death through his refusal to comply with the demands for money from members of the supposed Black Hand society, tonight was fatally wounded and is now lying at the Chicago Police hospital.

He was shot in the right temple by a bullet fired from a revolver.

Black Hand society while in the season of his son-in-law, Joseph Nicolai.

Zagone was found by the police on the sidewalk in front of the saloon, unconscious, with a loaded revolver under him.

Nicolai, his partner in the saloon business, and the victim's wife were arrested.

Mrs. Biago Zagone, wife of the cigar maker, was allowed to go home, but the two Nicolai brothers are being held as it is believed they know something of the shooting.

VICEROYSHIP FOR ROYA PRINCE

British Government Considering Placing Prince of Wales on the Throne of India.

London, May 7.—In correspondence of the Daily Mail, written from Calcutta, the British government is seriously considering the question of placing the viceroyship of India in the hands of a prince of the royal blood, and the suggestion is made that the younger son of the Prince of Wales be trained for the post. Lord Minto is the present viceroy.

LOST LIFE IN PRAIRIE FIRE.

The, Brunning, Son of Moose Jaw, Taken to Save Neighbors' Home.

Moose Jaw, May 6.—The Brunning, aged 28, who came from Minto, N.D., less than a year ago, and who was farming south of here on a large scale, having two sections of land, was the victim of a prairie fire, which swept that district early this morning. The wind only reached here, but he lived about eighty-five miles south of Moose Jaw in a district being heavily settled with Americans, and when the fire started, near Limerick, he went to his neighbor's house to see his neighbor's stock and house.

He lived about eighty-five miles south of Moose Jaw in a district being heavily settled with Americans, and when the fire started, near Limerick, he went to his neighbor's house to see his neighbor's stock and house.

The flames swept down on him, however, and before he could get help, he was enveloped and suffered injuries from which he died Tuesday morning. His body only reached here today. The settlers throughout that section are heavily losing stock, lumber and homesteads.

Settler Stripes from the Lake to the Lake.

Stripes one inch wide, solid backgrounds are correct. We show them in many shades in pure stock.

washed and flannels.

THE SPRING OF ALL COMFORT.

The Spring of all comfort is the season with a new suit that fits and pleases every way.

A suit that hangs well and stays in shape, not only becomes the wearer, but gives that contentment of mind that is a continual feast.

There is such a difference between a suit that is just right and one that is near right.

Faith in a garment annoys almost as much as a cinder in the eye.

You are always conscious of it, and feel sure that others must notice it.

For Spring clothes that will give you grace of form and comfort of mind, try Fashion-Craft.

GREAT POSSIBILITIES

LAC LA BICHE DISTRICT

A Country of Wonderful Agricultural and Timber, Says James Smith, Who Has Been Over the District and Has Made New Observations.

James Smith, Thirteenth street, recently returned from a trip through the Lac La Biche country, and has written an article for the Bulletin descriptive of this district, which has wonderful agricultural and timber resources. The article is as follows:

So many deserving complimentary things have been said and written about Alberta generally, that it is with some diffidence that I speak of this portion of the province lying between Edmonton and Lac La Biche. It is a portion of two years ago I came to this province, and I believe that I can safely say that I have travelled over the province more than the most of its residents. I have tried all manner of crops, and when that much abused animal failed, I walked and carried a pack of the best of the country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

Impressions Offer.

While I have gone through a great part of the country between here and Lac La Biche on two occasions with my own eyes, I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

I have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country, still my impression may be entirely different to the impressions of those who have seen a great country.

Whatever can be said of the portions of the country further south, it is manifest that we have here conditions which will enable a variety of country which cannot be excelled for beauty of scenery, fertility of soil, abundance of timber, wood, water, and all the requisites that are necessary to make a fertile land, a good agricultural community. When the important fact is added to this that it is being settled by hardy, sturdy, energetic and frugal people, it does not require great effort of imagination to discern that some day this will be an important part of Alberta.

GERMANY'S POSITION DIFFICULT.

Kaiser's Empire Finds Itself at Breaking Point, Commercially, With the United States.

Berlin, May 7.—An extraordinary difficult situation for Germany has been caused by the intention of the United States to terminate the commercial agreement. According to the Tagblatt, which discusses the question at length, Germany must again struggle for the advantages secured in the provisional agreement. The Tagblatt says:

"The new American tariff is in many points explicitly directed against Germany, and the concessions which Germany is able to offer so as to resist this protective tariff will probably be insufficient. Under the present arrangement Germany's trade and commerce must, for the moment, pay the price of the American tariff, which statistics prove that the percentage of the agricultural population is continually diminishing."

"These conditions, however, are becoming impossible to continue. Economic issues are at stake. The United States is one of Germany's best customers, and it will be difficult to find other markets for our industrial exports now going to the United States. The United States, on the other hand, can easily dispose elsewhere her agricultural products, the entry of which we make difficult."

"Princess' Luggage to Be Sold."

Paris, May 6.—In default of an arrangement for the payment of a hotel bill, the trunk and clothing of Princess Louise of Belgium, which have been seized by the police, will be sold on Saturday in accordance with a court order. The princess offered to make a certain payment monthly and claims that she was overcharged.

Many Settlers Located.

In an article directed from Edmonton, north of the Saskatchewan River up to Rocky Lake district, in the 60th Range 15, west of the 4th Meridian, there is a large area of fertile land right up to the lake, and away north-west of the lake. From Rocky Lake northwesterly to Lac La Biche there is a chain of lakes varying in size from one to ten miles in length, which for quantity and quality of water, for abundance of fish and beauty of scenery are unequalled anywhere. Lac La Biche which sitsuate a short distance north of the height of land between Edmonton and Arctic Ocean, is Queen of the Lakes. It is a deep water lake situated on a high plateau; the shore is interspersed with numerous creeks, bays and coves. It is dotted with beautiful islands covered with spruce, poplar and birch.

Fine Agricultural Land.

From Lac La Biche west to Athabasca Landing there is a strip of agricultural land. At one time the development of this country the greater part of this land was covered with heavy spruce timber. The fire has since destroyed the timber leaving small parcels of spruce and birch in different places. Portions of this burnt over country has grown up with scrub and small poplar. In other places large open areas are to be seen covered with luxuriant grass and pea vine in abundance. It is well watered with streams and small lakes, making it an ideal country for mixed farming and dairying. Through out this part of the country there are settlers from every land, almost every province in the Dominion, every state in the United States, and every country in Europe is represented. They are the people of "The Blessed Trail."

B.C. WILL YET EMBROIDER CANADA AND EMPIRE

Uncompromising Attitude Assumed by Vancouver, B.C., May 7.—That the Vancouver celebration of the visit of the Japanese emperor and his entourage is likely to be a most successful one is shown by the marked opposition to the celebration arrangements in various official quarters. The fact that the same committee by a very decided majority turned down the recommendation of Mayor Douglas for a \$100,000 donation to the military affairs of a parade and entertainment expenses.

Alfred McMillan declared hotly, when the military department presented the request, that an expenditure of that nature ought rather to show the main line of expenditure we are to show there.

Mr. McMillan said of five voted with McMillan, despite the protests of the military men that their action was purely advisory and that they were not to be held responsible for the results.

It is also said that the committee will not allow the military to have a parade in the city, but will allow them to have a parade in the suburbs, and that the military will have to pay for the parade.

Alfred McMillan declared hotly, when the military department presented the request, that an expenditure of that nature ought rather to show the main line of expenditure we are to show there.

TWO GRIZZLIES FOUGHT.

"Battle Royal in Zoo at New York" Between Great Bears.

New York, May 7.—Penny Pinch, the largest bear in the world, fought a battle royal with another bear, named Penny Pinch, at the zoo at New York, today.

The fight was a most interesting one, and the bears fought for nearly an hour before Penny Pinch was finally victorious.

The fight was a most interesting one, and the bears fought for nearly an hour before Penny Pinch was finally victorious.

KINRADE CASE NOT CLOSED.

Ontario Government Will Not Let Case Rest.

Toronto, May 7.—The general theory that the fact has been heard of the Kinrade case is to be no more correct one, as the Ontario government has decided to continue the case.

The Ontario government has decided to continue the case, and the case will be heard again in the future.

THE LIONS WERE KIND.

Three of Them Fell Before Roosevelt's Deadly Rifle.

Nairobi, May 7.—Four lions are now in the hands of the British government, and the lions were very kind to the British government.

The lions were very kind to the British government, and the British government is very kind to the lions.

DROVE OFF JACK FROST.

Grand Valley, Cal., Fruit Crop Saved by Two Hundred Thousand Bushels.

Grand Junction, Cal., May 7.—Ten hundred thousand bushels of fruit were saved from destruction by the action of the Grand Valley, Cal., fruit crop.

The Grand Valley, Cal., fruit crop was saved from destruction by the action of the Grand Valley, Cal., fruit crop.

China Wants Sir Robert Hart.

London, May 7.—The Chinese government has invited Sir Robert Hart to return to China.

The Chinese government has invited Sir Robert Hart to return to China, and Sir Robert Hart has accepted the invitation.

THE ORGAS-SHOOTED. Voted "Votes for Women at Mr. Birrell."

New York, May 7.—A single shot was fired by the Sun from London, today, in the case of the "Votes for Women" at Mr. Birrell.

The "Votes for Women" at Mr. Birrell was a most interesting one, and the "Votes for Women" at Mr. Birrell was a most interesting one.

WORTHLESS ASSETS WIPE OUT.

Committee of Commons Report—Total Stock Out \$1,000,000.

Ottawa, Ont., May 7.—The special committee of the House of Commons, appointed at the instance of H. H. Brown to review the assets of the Dominion and ascertain if the country is getting its money's worth, has reported today.

The committee has reported that the assets of the Dominion are worthless, and the Dominion is getting its money's worth.

TO KNOW BOTH LANGUAGES.

Provision For Training of Cases in French in Quebec.

Ottawa, Ont., May 7.—In committee today, the House of Commons considered a bill to provide for the training of cases in French in Quebec.

The bill provides for the training of cases in French in Quebec, and the House of Commons has agreed to the bill.

WHY EXCEMA PATIENTS SUFFER.

No Wonder They Despair—But Cure Has Been Found.

It is a strange thing about exema, that it is a disease which is not cured by the usual treatment, and the usual treatment is not the best treatment.

The usual treatment is not the best treatment, and the best treatment is the one that has been found.

FINANCIAL LEGISLATION.

Financial Times Notes Ontario for its Attitude Towards British Capital.

London, May 7.—W. H. Lawson, writing in the Financial Times, says that the attitude of the Ontario government towards British capital is a most interesting one.

The attitude of the Ontario government towards British capital is a most interesting one, and the Financial Times has noted it.

NO DANGER OF DEPLETION.

Fish Dealer Gives Evidence Before Fisheries Commission at Winnipeg.

Winnipeg, May 6.—Before the Fisheries Commission today, a fish dealer gave evidence that there is no danger of depletion of the fish in the Manitoba waters.

The fish dealer gave evidence that there is no danger of depletion of the fish in the Manitoba waters, and the Fisheries Commission has accepted his evidence.

BULLETIN CO. LTD.
DUNCAN MARRIS, Manager.

SATURDAY, MAY 8, 1920.

A BLOCKADING RESOLUTION.

Mr. Borden is opposed with the fear that the G. T. P. will be collecting western grain before the eastern season is ready for operation. He is alarmed that in the meantime the G. T. P. may forward this grain to the seaboard by American trade, or to American ports. Therefore he demanded that the company be bound to not divert traffic to other Canadian roads or to foreign ports.

This proposal would be all right if we had the Canadian rails to handle the traffic, but we have not. Until the eastern season is completed the G. T. P. system ends at Lake Superior. From that point eastward is only one line, the Canadian road, and during the early season of the year when grain is forwarded from Lake Superior by rail that line is crowded with more traffic than can get over it. The proposal amounts therefore to a demand that the new company be prevented trying to find another outlet by which some of the crop of the West can be got through to market, and be forced to throw it back wholly onto the line that already has more than it can properly handle. It is apparent that if the C. P. R. cannot handle the traffic it now has it would be less able to handle this traffic. The grain generated along the new lines of the G. T. P. The result would be that the Canadian carriers would get more business, for they now get all the grain. The C. P. R. can carry over its lines not that Canadian trade routes would benefit, for the only one that could benefit is lower than it can efficiently be in the grain season as it is, the only result would be that the movement of the western crop would be further retarded and the new road would be made to increase the annual blockade rather than to relieve it. Under the plea of conserving business to the west, the G. T. P. and its supporters the honorable gentleman has found a scheme that would retard the western grain growth while helping nobody.

This proposal discloses again the utter failure of Mr. Borden to grasp the essential feature of the western transportation problem, or his utter unwillingness to work for its solution. Years ago Sir William Van Horne voiced the knowledge of every western man when he said the "most" thing for the western grain market was the Atlantic is too small for the steadily increasing flow of grain. The eastern season even more voraciously than the G. T. P. portion. He apparently is convinced that we have the outlet needed for the western crop and that we require only more western lines to develop and collect the traffic. In this he is backed loyally by the representative and loyal members of the party, who are even prone the length of naming the eastern section the "weak" part of the project. The whole strength of the Opposition in the House and through the press has been devoted to derogating and if possible derailing the construction of this new line from the edge of the wheat belt to the Atlantic. Yet this is precisely the portion of the road which the West must have, and without which more local western lines would increase rather than lessen the annual problem. Local roads are needed, but they are not needed more than an additional route into which they can turn their traffic for forwarding to the sea. This essential difficulty of the western grain market will be solved when the eastern season is completed and opened for traffic. And if in the meantime the G. T. P. or any other western rail can find any other means, Canadian or foreign, for getting the grain out of the country more quickly than this is now getting out, they have the gratitude and approval of the people of the West.

THE NEW TRIPLE ALLIANCE.

Poster says Jupiter, the Moon and Venus are to join their electrical energies to bring storms and electrical discharges to this continent during the middle of the present month. The alliance, he intimates, will be successful. Too, Jupiter being the ancestral chief of the Roman deities, may have been excited to wrath by the swelling importance of the rising Republic, and the Moon being merely a satellite of his doubt takes her cue from his humor, but why the goddess of beauty, who would play the contemptible comedian is puzzling. What have we ever done to

Venus that she should join our feet and make us on our material welfare and our peace of mind; should help retard our crops and make life miserable for us? This ingenious poster, who is long to be long as well as undesired. Perhaps she hopes to end the Moon from the afflictions of Jupiter. To those astrologers, of course, we can have no power so long as the parties preserve their proper attitude to upward. But we protest that they have taken care of them and don't want to and should not be dragged into the affair. Any way, we have the lady to help from poster and our good will is not for rival, neither does it govern the emotions of old Jupiter.

One theory explains the unfortunate situation. It is the astrologers. They have been training their telescopes and fixing our attention recently on Mars and insisting that we ought to open up communication with the god of war. Whereas poster is speaking among the heavenly orbs and now we have a triple alliance of them at open warfare with us. While we were swaying along our cheerful, serene path, little attention to any of them and distributing it among them without particularly we were in the line of them; played one off against the other and preserved the balance of power. But the astrologers had to butt in and try to work up a correspondence with Mars. Now we find a whole array of worlds conjured to bring destruction upon us. This is the fruit of meddling with what we know nothing about. These astrologers should be jailed. Failing this they should do what they can to make amends for the trouble they have got us into. Let them turn away from Mars, train their glass on Venus and figure out if their glass can convey to the disgruntled lady the assurance of our unwavering devotion. Let them explain away the last face they have put on the appearance of things, assure her that it was not their fault, but rather that of the astrologers. Let them turn away from Mars, but simply that he had to talk with somebody, and Mars was with eager biding desire. He may they break up this unrighteous combination and restore interplanetary relations to their normal state.

CURRENT COMMENT.

Mr. Foster and Mr. Garvell are the Alpha and Gaston of Parliamentary debate.

Sultan Medjid V. seems to be a good fellow. For a man who has been a third of a century in jail he has got at the modern secret of success in remarkable manner.

Mr. Rossvelt's hunting party comprises 201. It is a good guess that the old one may not be a newspaper correspondent.

The Sikhik Centennial will be a splendid thing for Winnipeg tomorrow. A large amount of extra labor to the department. The men will likely be in the city all day.

The taking of the Edmonton census by the police is progressing without a hitch though the work is involving a large amount of extra labor to the department. The men will likely be in the city all day.

Major Lee's absence at the post for the next few days will necessitate the appointment of a deputy at next council meeting. During the absence of Mayor McDougall last year the council was led by Mr. A. McLean, and he will likely be the presiding officer again this year.

WEEK AT CITY HALL

Probably the most important matter council this week was the east end bridge scheme which is being energetically kept to the front by a number of the east end ratepayers. The bridge, which the longest which shall be the same grade level as the present bridge, be built at the foot of River street just west of Fraser's mills. The cost would be about \$100,000. The bridge would be the estimate prepared by Mr. Mitchell, of the city engineer's department. The bridge would be approached on the Edmonton side by Rowland street on a five to one grade, and on the Strathcona side the grade would be not less than one. The bridge would be of steel truss type. The bridge would be of steel truss type. The bridge would be of steel truss type.

The insertion of a fair wage clause in all city contracts in future means a decided triumph for the labor union of the city. No specific amount has been fixed as a minimum, but the current minimum wages will be looked to as a standard.

The need of the new filtration system is becoming more apparent. The Saskatchewan water is at the present time very muddy and the public would gladly welcome the filtered water at the present time.

The purchase of a railway street sprinkler is one of the most urgent needs of the city. The city has a decided triumph for the labor union of the city. No specific amount has been fixed as a minimum, but the current minimum wages will be looked to as a standard.

Another step was taken this week towards the establishment of a police library in Edmonton in the near future. Options were secured on two lots of books were submitted to the council last week. Several others are being submitted this week and will be submitted next week. Meanwhile no definite information has yet been received from Andrew Carnegie as to the amount he will donate.

The completion this week of the placing of red sandstone paving means that the city will have a new pavement in the city and greatly to the benefit of the city.

The present work marked the commencement of water sewer extension in the city. The work is progressing well and the city is to be congratulated.

The taking of the Edmonton census by the police is progressing without a hitch though the work is involving a large amount of extra labor to the department. The men will likely be in the city all day.

Major Lee's absence at the post for the next few days will necessitate the appointment of a deputy at next council meeting. During the absence of Mayor McDougall last year the council was led by Mr. A. McLean, and he will likely be the presiding officer again this year.

The date for the taking of the electric street car line is the operation of the street cars has not yet been fixed, but the line will be in operation by the end of the month.

Edmonton's tax rate for 1920 has not yet been fixed, but it will be in the course of the next few days. The rate will be about 14 1/2 mills, the same as last year.

The following table shows the estimated rates in Edmonton and Calgary for the last ten years.

Year	Edmonton	Calgary
1910	14 1/2	14 1/2
1911	14 1/2	14 1/2
1912	14 1/2	14 1/2
1913	14 1/2	14 1/2
1914	14 1/2	14 1/2
1915	14 1/2	14 1/2
1916	14 1/2	14 1/2
1917	14 1/2	14 1/2
1918	14 1/2	14 1/2
1919	14 1/2	14 1/2
1920	14 1/2	14 1/2

NOTICE.

Notice is hereby given that pursuant to the provisions of the City of Edmonton Act, 1911, the City of Edmonton is authorized to borrow money for the purpose of carrying out the works of the City of Edmonton. MILITARY MATTERS

The 10th Alberta Mounted Rifles will this year camp at Edmonton, commencing about June 20th, and lasting for two weeks. It will be a regular camp and will be composed of the four squadrons of the regiment. This movement will be of great benefit to the officers and men of the 10th, as it will enable more of them to attend camp and will be more satisfactory in many ways than last year's camp at Calgary.

The announcement that the brigade came in Alberta has been abandoned this year was made by Lieut. Col. F. A. Cruikshank, shortly after he assumed command of military district No. 10. It was at first intended to hold small brigade camps in different parts of the west. The militia department, however, changed their plans and decided on the regimental camps. This change has been made owing to lack of funds and the policy of curtailing all expenses possible with efficiency.

Regimental camps will be held this summer at the various regimental headquarters throughout the province. This means that the 10th Alberta Mounted Rifles will camp at Edmonton, the 10th Light Horse and 10th Field Artillery at Calgary, the 10th Cavalry at Regina, the 10th Infantry at Medicine Hat, the 10th Artillery at Brandon, and the 10th Battery of Field Artillery at Lethbridge. The camp will be held at different times during the summer to enable Colonel Cruikshank to visit each and inspect the regiments in his new command.

There is a great probability that there will be a full attendance of every squadron of the 10th A. M. R. at camp this summer at Edmonton, by holding the camp two weeks instead of one week as in former years. It will also allow the 10th to take part with the 10th Edmonton Fusiliers in the celebration, during the Edmonton exhibition, which will be in progress from June 20th to the 30th of July. This year the new infantry regiment at Edmonton will probably take part in manoeuvres and exercises with the 10th. This will mean that over 50 military men will be at camp. Edmonton will be able to lead the province in military matters in numbers and judging by the regular drill now in progress, in efficiency also. Col. Cruikshank has announced that no canteens will be permitted to sell liquor in any of the camps this year. Very strict orders have been received from headquarters to this effect and the camp in military district No. 10 at any rate these orders will be rigidly enforced. This move will appeal to all officers and men who really desire to see a successful camp.

On Tuesday evening last in place of the regular drill a meeting of the men of A Squadron, 10th A. M. R. was held in the office of Griegsback & O'Connor to discuss the proposed bringing of the squadron and to make arrangements for the season. A suggestion was made that a squadron should affiliate with the Edmonton Rifle Association in order to obtain the use of the ranges for rifle shooting without delay. A committee composed of Sergeant Major, Lieut. Roberts, McDonald and Sergeant Brown, was appointed to meet with the officers of the Rifle Association and discuss this matter. Greater attention will be paid to rifle shooting in A Squadron this year and as there is a great deal of promising material in the 10th should be able to stand high in rifle shooting in the province.

An expression of opinion was taken regarding this year's camp and it was found that the majority favored bringing a regimental camp at Edmonton. The same feeling exists among the other squadrons of the 10th and the subsequent announcement that regimental camps would be held at Edmonton will be very popular.

An effort will be made by the officers of A Squadron to secure a school of instruction for the 10th early in June before camp. At the meeting

briskly and little difficulty should be experienced in getting the new regiment up to full strength. The number enrolled now will cover the 20th mark and everyone is very enthusiastic. A large number of old soldiers are joining the 10th which gives the regiment more the appearance of a long established organization than that of a new regiment.

One very popular line of work in connection with the 10th is the athletic. An amateur athletic association has been formed in connection with the regiment and every squad in which the men are interested is being started. A football club has been organized and a team entered in the city league. On Thursday evening the 10th association football team played the St. Georges on the Exhibition grounds, the latter team winning by a score of 2 to 1. The 10th showed up well in this game. There are a number of good players on the team and with a little more practice they should be able to hold their own with any team in the league. On Wednesday evening next they will play the first league game. On Wednesday evening the 10th will play the first league game. On Wednesday evening the 10th will play the first league game.

A meeting of the 10th A. A. was held in the Separate School Hall after parade last evening when it was decided to form a cricket club. The challenge of the Edmonton cricket club to play a practice match on Saturday, May 16th on the Exhibition grounds was accepted. Any member of the regiment desiring to join this cricket team should communicate with Sergeant Hudson, C. company on Tuesday evening after parade.

A baseball club will also be formed in connection with the 10th. Two delegates have been appointed to represent the club at the city league baseball meeting on Monday evening next. It is the intention of the 10th to form a Maroon club in the near future and any consideration attending this summer to track and cross country and any consideration attending this summer to track and cross country and any consideration attending this summer to track and cross country.

Rifle shooting will also play an important part in the life of the 10th. The 10th has been selected to represent the city at the range of the city league. The 10th will enter a team in the Toronto and Montreal rifle shooting competition on May 24th, under the regimental banner. The 10th will enter a team in the Toronto and Montreal rifle shooting competition on May 24th, under the regimental banner.

Word has been received that the new uniforms for the 10th A. M. R. have been shipped to Strathcona. They should arrive shortly and will be at once issued to the men. The new uniform is very attractive and the men will present a much better appearance in uniform. They are all scarlet in color with blue trousers and yellow stripes. Blue peaked caps with white tops will also be worn.

of the organization of a bugle band. This will consist of some 20 buglers and drummers. Already 27 or 28 buglers have been enlisted and the drummers are being sought. A number of English horns have been purchased with a view to securing prices on bugles and bandleaders.

The orderly officer for the week ending May 10th is Captain Marshall, next to be orderly sergeant is Lieut. Col. Griegsback, and Lieut. Col. Griegsback, and Lieut. Col. Griegsback.

A meeting of the Imperial South African veterans of the city was held at the Windsor Hotel last evening to appoint delegates to attend the convention of the Imperial South African Veterans' Association, to be held in Toronto on July 12th. As the attendance at the meeting was not large it was decided to hold another meeting in the near future to appoint delegates.

Captain Griegsback announced this morning that the new ad for A Squadron has arrived in the city and at 10 o'clock on Saturday street it will be issued to the men on Wednesday morning, after being properly marked.

GILLETTS PERFUMED LYE

CAUTION.

Put a strong glass on the label and examine it closely every time. Always look for the name "Gillett's".

Like all good articles, which are extensively advertised, Gillett's Lye is frequently and very closely imitated. In some instances the imitators have actually copied directions and other printed matter from our label word for word. Be wise, and refuse to purchase imitation articles, for they are never satisfactory.

Insist On Getting Gillett's Lye

and decline to accept anything that looks to be an imitation or that is represented to be "just as good" or "better" or "the same thing." In our experience of over fifty years in business we have never known of an imitation article that has been a success, for imitators are not reliable people. At the best the "just as good" kinds are only trashy imitations, so decline them with thanks every time.

WINNIPEG, TORONTO, ONT., MONTREAL.

Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of this hard wheat but also the superior milling facilities, that places "PURITY" flour so far above all others. Our milling plant at St. Boniface, Manitoba, cost nearly \$1,000,000, and is one of the most perfectly equipped mills in the world. The wheat itself is subjected to the most wonderful system of cleaning and scoring, passing through twenty distinct machines. Fifty-five steel rollers, the largest in Canada, reduce the wheat into flour. Then it is purified and dressed by "bolting" through silk sifter of fine mesh. Not a "branny" particle or speck of dust is ever found in "Purity" Flour.

You may have to pay a little more for Purity flour, but baking results, quality and quantity, prove it is worth far more than the slight difference.

We have two other modernly equipped mills at Brandon, Man., and Goderich, Ont.

PURITY FLOUR

"More Bread and Better Bread."

AMUSEMENTS

SAN FRANCISCO'S NEXT WEEK.

It is only a few weeks since the San Francisco Opera Company was in Edmonton on its war music and gave us three excellent operas. At that time, the company was in the city for a week, and it was a great pleasure to have them back in the Capital on the main trip to Seattle, and he also promised to give his personal, a larger company and better productions than anything he had before. And this is what we are to have next week, starting Monday, May 10. Much interest is evinced by all classes of people who like good, clean amusement, over this engagement, and the theatre-going public is at a high price of expectancy and interest. It is known that Mr. Healy, keeping faith with his partners, almost a thorough reorganization of the company took place at Port William, and while the old favorites, like Teddy Webb, Mabel Day, J. Russell Powell, Lucille Palmer and Fred Snook are still retained, many new people who are exceptionally clever have been added to the principal cast, and also eight more chorus people. All the new ones come direct from New York, and are the best that can be engaged. Then another interest attaches to this engagement owing to the fact that we are to have some of the most popular musical ensembles of the last decade. "Florodora" for Monday and Tuesday and Wednesday matinee; "Boccaccio" Wednesday night; "The Strollers" Thursday night; Friday and Saturday nights and Sunday matinee. "The Mocking Bird." An entire new equipment of costumes and scenery has been purchased for the facilities of presentation of these four excellent ensembles, and the cause of the audience in details that has always characterized the San Francisco Opera Company will be even more apparent this time.

The company goes direct to Seattle for the third consecutive summer season, and will touch only a few of the principal places on route.

NEXT WEEK AT THE ORPHEUM.

Some little disappointment was felt by Orpheum patrons at the non-appearance of some of the stars billed to appear during the present week, which, through no fault of the management, was unavoidable. As it was an additional series of pictures were shown to make up the discrepancy and taken all round a very satisfactory and pleasing entertainment has been the rule.

Commencing on Monday next, the program of this theatre are assured that four of the best and most original acts obtainable will put in an appearance, and provide Orpheum patrons with a performance such as has never been exceeded since the theatre opened.

The Camells, (Frank and Jennie) are reported to be coming to the artists of the "First water," and will have a laughable number for the opera.

ending night. A comedy sketch is always acceptable when properly worked, and the "Camells" are counted on to show how it should be done. It is turned that it is sure to be a winner and be appreciated by everyone. It is that of "The La Sella Trio." Novelty ensembles. Years of experience in the business have made them proficient in every part of their act, and where they have appeared, have evoked favorable criticism and pleased the crowd.

Arnold B. Wurnell will introduce a novelty act, the being given on the list as a spectacular acrobatic dancer, and his contribution to next week's bill should be one of great importance and of a particularly interesting nature.

The Danbars, Charles and Madeline, will indulge in singing and also in dead end taking, at which they both excel. With new jokes, smart gags, good voices and a well placed appearance the Danbars should do well.

To swell this list of acts, sufficient to themselves to draw the crowd, some animated pictures will be presented, and again Miss Blanche Huse will be responsible for the illustrated song.

SENATE PASSES LEAD DUTY

More Willing to Give Than the Lead Producing State was to Ask. Washington, D. C., May 7.—By a vote of 52 to 19, the Senate this afternoon adopted a tariff of 1 1/2 cents per pound on lead. Severe comment was passed by the Democrats on the duty, though neither side is a lead producer of any account. Sen. Stone, Democrat from Colorado and Louisiana, who voted for the duty, though neither side is a lead producer of any account. Sen. Stone, Democrat from Colorado and Louisiana, who voted for the duty, though neither side is a lead producer of any account.

LOST TWENTY MILLIONS

Of His Own and Three Millions More That Belonged to Other People.

New York, N.Y., May 7.—Chas. W. Morse who in 1907 boasted his wealth at \$22,000,000 today swore to a commission appointed by the Supreme Court that he had not a cent left, neither stocks, mortgages nor money owing to him, neither did any reliable have anything he could claim. The examination was held in the Tombs. Morse is serving a fifteen year sentence for bank wrecking. His debts are in the neighborhood of three millions.

PURIFYING CALGARY.

Police Have Ordered Keepers and inmates of Houses of Ill-Fame to Get Out.

Calgary, May 8.—Last evening Spill, Deane, of the R. N. W. M. P., notified the inmates and residents of the restricted district of Nose Creek that they must have to go. He gave them thirty days to move. Some days ago the city authorities ordered the inmates on the list to be cleared out, and this action, coupled with the move of the R. N. W. M. P. will result in the disbandment of the red light districts leaving the city for good.

Last night the city police arrested Joe Smith, Polly Pres and Mike Bell. Much of the people from the store of Toronto, when the sale was carried off one-time ago, have been found in their possession. The police are confident that they have the guilty parties. Polly Pres and Joe Smith were formerly of Winnipeg.

FOUR VICTIMS WILL DIE.

While Seven More Were Dangerously Hurt in Seattle Accident.

Seattle, May 7.—Of the 169 victims of the National Guard among soldiers' bodies last night, four, Mrs. O. F. Sprague, Cecil Thornton, Marion Lewis and Edwin O'Neill, will in all probability die. Seven others are dangerously hurt and the condition of some of the latter is most serious. Criminal prosecution of those having to do with the construction of the armory is threatened and in the event of the death of any one of the victims each step, both Prosecuting Attorney Vunderler and Charles Snyder, assistant will be taken. In any event there will be a rigid investigation with a view to prosecuting both Matthew Dore, the contractor and George B. Lohman as one of the firm of supervising architects.

Electric Current Caused Two Fires.

Toronto, Ont., May 8.—Two strong currents coming through the wires from Niagara Falls is blamed for two fires which broke out early this morning. Harold A. Wilson, sporting goods merchant on Yonge street, and Canada Glass and Tiles Co., Richmond Street, east, were the sufferers. Wilson's loss is twenty-five thousand, and the glass company ten thousand. Most of the damage was done by water. In the Richmond street building one of the men turned on the electric light button and it melted in his hand.
